# Instant stabilisation levelling & adjustment

Stabilises the table in a fraction of a second automatically. Unique Flat<sup>®</sup> technology means that, for the first time ever, the alignment of the tabletop can be adjusted to suit different surfaces, simply by lifting the table.

## Flat<sup>®</sup> smart system

It's always 'on', constantly aware of the surface below and adapting instantly to changes.

## Design integration

The table base and technology form a seamless partnership. They have been designed and manufactured for sympathetic integration into table production.

## Engineered durability

Flat<sup>®</sup> is made with high quality polymers and has undergone extensive R&D and exhaustive testing. The result is an exceptional quality product that you can depend on.

## '4x4'

Outperforms any similar product on the market. It's capable of adapting to a far greater variety of surface inconsistencies and delivers superior stability - whatever the terrain.
